

STATE OF
ALABAMA
DIRECTORY

2007

Provided by
Department of Finance
Information Services Division

NOTICE

This directory is compiled from listings
furnished by organizations and individuals.
It is only as accurate as the information furnished.

Corrections, additions, and deletions should be submitted
to your Agency Telecommunications Coordinator.

NOTE

THE USE OF ALL STATE TELEPHONE SERVICES
MUST BE LIMITED TO OFFICIAL STATE BUSINESS ONLY.

PREFACE

The State of Alabama Telephone Directory is provided by the Finance Department, Information Services Division to provide a vital communications tool for our customers. Every effort has been made to update personnel and agency directory listings prior to publication. In addition, State Telephone Operators update records on an ongoing basis to ensure that the most current information is available.

Our ability to provide correct information to the user, as well as to the calling public, is directly based on the quality and timeliness of information furnished by each Agency Telecommunications Coordinator. Please notify your Agency Telecommunications Coordinator when personnel changes occur. Agency Telecommunications Coordinators not having access to the online State Directory should give written notification of any changes to the Information Services Division, Office of Voice Operations.

State employees should become familiar with the guidelines and procedures in this directory. Instructing new employees in the correct use of the network will improve the efficiency and cost benefits of the network, as well. Telephone training is also available upon request.

The State Telephone Directory is now available via the Internet. Personnel and agency listings can be accessed through the ISD web site at www.info.alabama.gov. The directory can be printed as a whole or in parts from this site as well.

We thank each of you for providing information for this directory and welcome any suggestions for its improvement.
